

FOR IMMEDIATE RELEASE

December 15, 2015

CHRISTMAS TREE RECYCLING

TDS will accept clean Christmas trees and organic decorations for recycling, free of charge from December 26th-January 31st.

Austin, TX and Surrounding Communities - For over a decade, Texas Disposal Systems has been helping the Austin and San Antonio communities recycle their Christmas trees and organic holiday decorations in the greenest way possible, and are doing so again this year, for free! Residents can drop off their Christmas tree, holly, pumpkins, and other living decorations at the locations listed below. These living decorations will then be repurposed and made into nutrient rich mulch and compost through the Texas Disposal Systems composting division. The finished composts and mulches will be available for purchase at Garden-Ville stores throughout Central Texas.

Trees and decorations must be free of lights, ornaments, metal, and other non-living contaminants. A \$45 contamination fee will be assessed for trees and decorations that have not been cleaned. When bringing loads for drop off, make sure the material is tied and tarped, per Texas law.

Recycling Locations: (* TDS locations will be closed January 1st for the holiday, Garden-Ville locations will be closed December 31st and January 1st.)

Texas Disposal Systems, "Noticeably Different, Noticeably Better", offers solid waste services, recycling, and composting to residential communities, schools, businesses, and cities. TDS was founded in 1977 with a mission to provide the highest quality waste processing services while keeping the best interests of our customers, employees, and environment a priority. The TDS landfill is the state's first totally integrated facility of its kind, incorporating solid waste disposal, compost production, and recycling operations from inception. Visit texasdisposal.com

Garden-Ville specializes in producing and offering superior organic gardening products such as compost, soil, mulch, retail items, and gardening supplies. Garden-Ville organic gardening products are produced by the Texas Disposal Systems composting division, creating quality lawn and garden products through diverting and recycling green waste, brush, tree trimmings, fruits, and vegetable matter. Founded in 1957, Garden-Ville products have been developed, tested, and proven over the years as our commitment to provide quality, natural gardening products and our personal responsibility to the environment. Garden-Ville features seven locations across Central Texas. Visit Garden-Ville.com.
